7.   AT&T LOCAL EXCHANGE SERVICES

7.4   Features (continued)

Anonymous Call Rejection (ACR)

This feature allows the subscriber to automatically reject calls
from callers who block delivery of their name or telephone number.
Customers activate Anonymous Call Rejection by pressing *77.
Customers cancel ACR by pressing *87. It does not block calls
from numbers that are unavailable. By turning on this   (N)
application, you may inadvertently block calls you wish to |
receive.   (N)

Blocked calls or calls marked private are routed to an
announcement that will indicate that the called party is not
accepting calls from parties with private numbers. Anonymous Call
Rejections will be automatically provisioned (free of charge) to
all AT&T Local Service Caller ID services customers.

Call Forward Busy

This feature allows the customer to designate a telephone number
to which their calls will be forwarded to in the event that their
number is already in use. The Customer assumes financial
responsibility for all calling charges generated by the use of
this feature.

Call Forward No Answer

This feature allows the customer to designate a telephone number
to which their calls are forwarded to after a predetermined time
with no answer. The Customer assumes financial responsibility for
all calling charges generated by the use of this feature.

Call Forward Variable

This feature enables a customer to program their telephone to
forward their calls to another telephone number. The Customer
assumes financial responsibility for all calling charges generated
by the use of this feature.
